

Little Bowden Primary School Strategic Plan 2024-29

Working together to love learning

Introduction

The Governing Body of Little Bowden Primary School has produced a strategic plan that sets out the school's short and long term priorities – where we are going and why. Written in collaboration with staff and pupils, it recognises the world in which our children live and need to be prepared academically, mentally and socially. It details the important goals we need to achieve along the way and is underpinned by our mission, vision and values.

Guided by this strategy, the Headteacher and staff will develop a yearly School Development Plan (SDP) which sets out the improvements, actions, measures and targets that need to be made to achieve our strategic goals. Each area of the SDP will have a more detailed Subject Action Plans that will be regularly monitored by Governors to ensure the intent, implementation and impact of the curriculum, our pedagogy and the outcomes are in line with our strategic priorities for delivering continuous improvement.

Vision

Inspire creative, curious, independent and resilient learners

Mission

- To empower our children to achieve academic excellence
- To build resilient and independent minds to flourish in an ever changing world
- To celebrate culture, community and diversity
- To nurture teaching excellence by valuing self-reflection and professional development

Strategic priorities

1. An ambitious, memorable, diverse curriculum which engages, excites and encourages a love of learning.

2. Develop motivated, independent, self-reflective learners through quality first teaching and learning.

3. Every child's LBS journey will provide a platform to build resilience, self-esteem, confidence and the character skills to succeed in life.

4. Children, parents and carers, staff and governors and the community work together to constantly improve outcomes for children.
